

DIANA BEATRIZ TINOCO

(504) 231-0575 dianabeatriztinoco@gmail.com [GITHUB](#) [LINKEDIN](#)

SKILLS

Languages: JavaScript -- Python -- HTML / CSS

Libraries: Sequelize / PostgreSQL -- SQLAlchemy React.js -- Redux -- Node.js / Express.js -- Flask

Tools: Heroku -- Git -- APIs -- Docker -- Websocket

PROJECTS

Viropayati *Solo Project* (JavaScript, React, Redux, Python, Flask, SQLAlchemy)

[live](#) | [github](#)

Full-stack application to host and book yoga classes

- Solo Built Full-Stack application with the goal to create a website where students and teachers could create profiles and dynamically create / book classes
- Future plans include implementing a map to display classes, adding a feature where students can leave reviews for teachers.

ArtyGram *Group Project* (JavaScript, React, Redux, Python, Flask, SQLAlchemy)

[live](#) | [github](#)

Full-stack clone of social media platform, Instagram

- Pair-programmed with a **team of 3** to build full **CRUD** features using **React / Flask-SQLAlchemy** within a week deadline
- Implemented a lightweight Javascript library for creating particles for enjoyable design purposes

PostBrb *Group Project* (JavaScript, React, Redux, Express, Sequelize / PostgreSQL)

[live](#) | [github](#)

Full-stack clone of social media platform, Medium

- Pair-programmed with a **team of 3** to build full **CRUD** features using **React / Sequelize / PostgreSQL** within a week deadline
